About Tele-Dermatology

Tele-Dermatology is a sub-speciality in dermatology for getting help from a dermatologist using photos, video conferencing and web.

It makes it possible for you and your child to remotely receive a medical diagnosis and treatment from dermatologist for a wide variety of skin conditions.

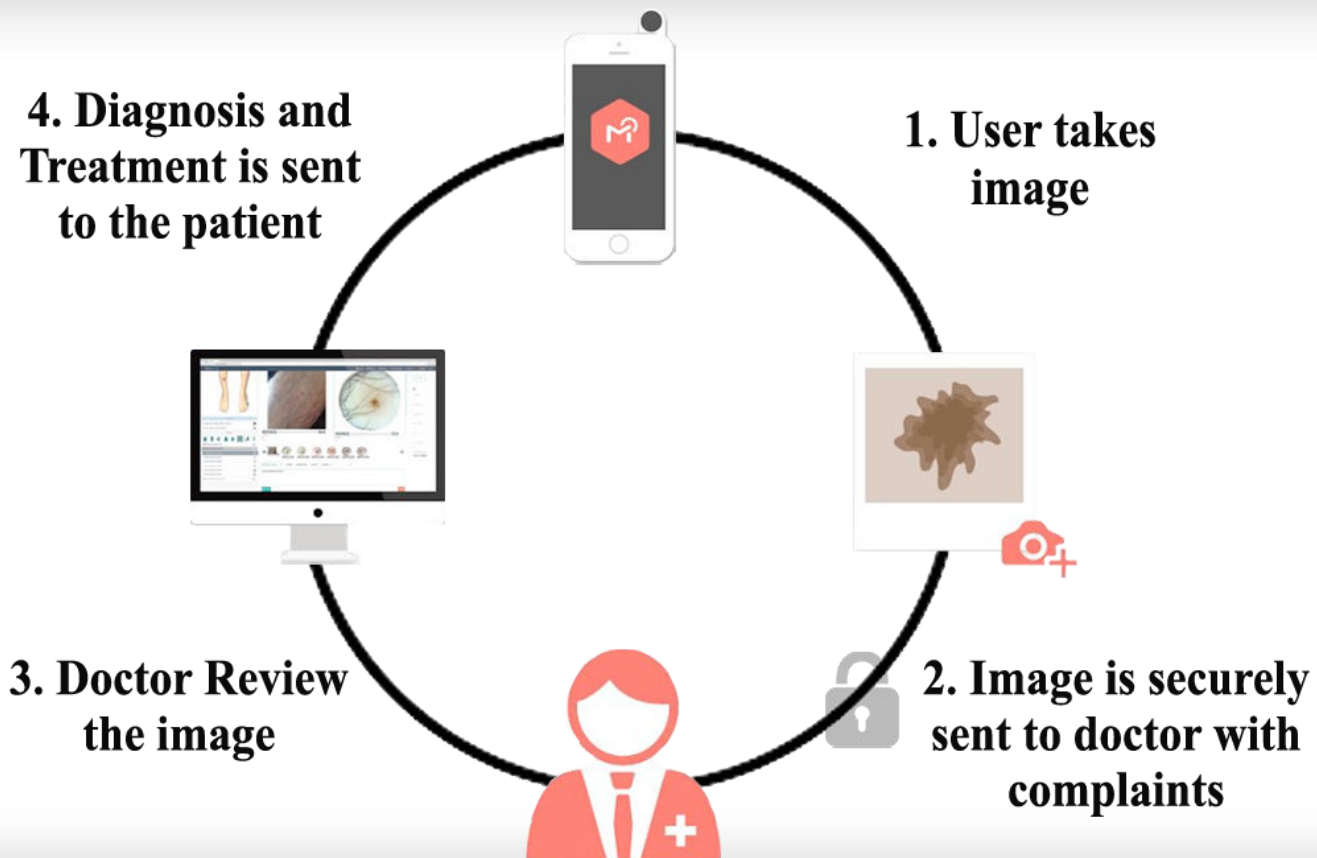

Benefits of Teledermatology

- Increase access to care for patients in ultra-rural, rural, Sub-urban and urban areas.
- Patients satisfaction because of convenience, cost reduction and speed of resolution.
- Better specialist utilization because of ability to quickly triage large number of cases.
